

GROW YOUR BUSINESS WITH CUSTOMIZED ENERGY SOLUTIONS

END-TO-END SERVICES FOR BATTERY AND SYSTEMS TESTING, R&D AND ENERGY STORAGE SYSTEM

ONE-STOP SOLUTION FOR YOUR EV & ESS BATTERY BUSINESS.

CUSTOMIZED ENERGY SOLUTIONS EXCLUSIVE SERVICES INCLUDE:

CLAIM VALIDATION TESTING

Validate the claims provided by the manufacturer. CES helps you validate the performance, endurance and life cycle claims of energy storage system and complete systems

BATTERY-PACK TROUBLESHOOTING

CES provides definite and precise solutions to ensure delivery of required performance of energy storage and complete systems. CES helps you identify and highlight design faults, performance issues at component level and works with you to develop a market-ready product

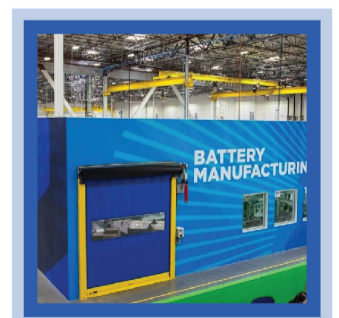

RESEARCH AND DEVELOPMENT

From material development, prototype development to testing of the energy storage and complete systems, CES helps you in designing better product and algorithms. CES expertise include developing fast charging algorithm, state of charge measurement device etc

MANUFACTURING AND BUSINESS DEVELOPMENT ASSISTANCE

CES provides end-to-end support in setting up manufacturing facilities. This includes finding right partners in supply chain, marketing, business development, and human resource and others
